

SHAMSHUL AZAM ANSARI

Full Stack Software Developer

Noida Sector 63, Uttar Pradesh | +91 9616277368 | azamansari9995@gmail.com | **Portfolio:** <https://azamansari9998.bsite.net/>

PROFESSIONAL SUMMARY

Full Stack .NET Developer with extensive hands-on experience designing, developing, and deploying enterprise-level software solutions using .NET Core, ASP.NET, and C#. Currently working on the Multi-Lane Free Flow (MLFF) project, alongside TMS, ATMS, NMS, ANPR, and STQC security compliance work for NHAI and IHMCL highway infrastructure. Adept at diverse projects including real-time database synchronization, Web API integration, service-oriented architecture, IP camera streaming, and secure authentication systems, with strong command of full-stack development, SQL Server management, system integration, real-time monitoring, and client coordination. Developing complementary expertise in Python, Django, OpenCV, YOLO, and OCR for AI-driven detection and recognition systems.

TECHNICAL SKILLS & INTEREST

Languages & .NET Stack: C#, ASP.NET, .NET Framework, .NET Core, ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework, Entity Framework Core, Razor Pages

Web Technologies: HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap

Databases: SQL Server, MySQL

Application Types: Web Application, Console Application, Windows Services, Web Services

APIs, Integration & Quality: REST APIs, Open APIs, Authentication & Authorization APIs, JSON Serialization, Newtonsoft.Json, CRUD Operations, Caching, Security, Scalability

Tools & Platforms: Git, GitHub, GitLab, Swagger, Postman, Visual Studio

AI: Python, Django Framework, OpenCV, YOLO, OCR, AI Integration

Domain Expertise: MLFF, TMS, ATMS, NMS, ANPR, Face Detection, STQC Security Compliance, CCTV, IP Camera Streaming, NHAI, IHMCL, Real-Time Data Monitoring

Professional Strengths: System Integration, Client Handling & Coordination, Technical Troubleshooting, Production Support, Cross-Functional Collaboration, Scalable Enterprise Delivery

Areas of Interest: Advanced Traffic Management System (ATMS), Toll Management System (TMS), Multi-Lane Free Flow (MLFF), Network Management System (NMS), Automatic Number Plate Recognition (ANPR), STQC Security Solutions, Intelligent Transportation Systems (ITS), NHAI & IHMCL Highway Projects

PROFESSIONAL EXPERIENCE

Software Developer | **VRS Intelligent Innovative System Pvt. Ltd. — Noida** **Sep 2024 – Present**

- Currently working on **Multi-Lane Free Flow (MLFF)**, alongside **TMS, ATMS, NMS, ANPR, Face Detection, STQC Security, NHAI, and IHMCL** modules as part of a large-scale Intelligent Transportation Systems platform, with expertise in system integration and real-time monitoring.
- Build **.NET full-stack applications and REST APIs**, database-driven modules, and system integrations supporting Data Monitoring Services and production operations.
- Apply **Python, OpenCV, YOLO, and OCR** to develop AI workflows for camera-based vehicle and face detection/recognition solutions.
- Skilled in **client handling and coordination**, technical troubleshooting, deployment, and delivering efficient, scalable service solutions.

Software Developer | **Chetu India Pvt. Ltd. – Noida** **Dec 2023 – Jul 2024**

- Developed the **Inventory Management System** for product tracking and stock management using **.NET Core MVC and Web API**.
- Built the **Employee Attendance Management System** covering attendance operations, dashboards, authentication, and report generation.
- Implemented solutions using **C#, .NET Web Applications, Entity Framework, ASP.NET Core MVC, Web API, HTML, CSS, SQL Server, and MySQL**.

.NET Training | **ANS IT Services - Noida** **Jun 2023 – Dec 2023**

- Completed comprehensive, hands-on **.NET Full Stack training** covering C#, .NET Core, ASP.NET Core MVC, Web API, Entity Framework, SQL Server, HTML, CSS, jQuery, AJAX, and Angular.
- Gained hands-on experience building end-to-end **web applications and APIs**, including Windows Application development.

PROJECT EXPERIENCE

Multi-Lane Free Flow (MLFF) — Currently Working

Domain: VRS / IHMCL / NHAI | **Role:** .NET Full Stack Developer

Tech Stack: C#, ASP.NET Core, REST APIs, SQL Server, Real-Time Services

- Presently developing a barrier-less, high-speed multi-lane vehicle capture and processing workflow with ANPR and tag correlation.
- Building lane/plaza configuration, transaction processing, and audit record modules for free-flow tolling across NHAI/IHMCL highway corridors.

Toll Management System (TMS)

Domain: IHMCL & NHAI | **Role:** .NET Full Stack Developer

Tech Stack: C#, ASP.NET MVC, Razor Pages, Entity Framework, SQL Server, REST APIs, Web Services, AJAX, jQuery, JavaScript, Bootstrap, .NET Framework & .NET Core APIs

- Enterprise toll management application supporting toll plaza operations, transactions, vehicle information, lane operations, reporting, and system integration.
- Built AVC and Lane AVC monitoring, Blacklist/Whitelist/Issuer lists, and Vehicle Class, Weight & Exempt Vehicle handling.
- Developed User Shift Assignment, Role management, and MPUSER administration modules.
- Delivered Toll Trax, Toll Receipt, Toll Payment, Toll Journey, Toll Events, and Tag Details modules, along with Toll Rate/MP Toll Rates, Plaza, Routes, and Lane Direction configuration.
- Implemented Cashup Records, Cash Float Records, CCH Mapping, BC Records, IHMCL Info, USB Monitor, NVR, and Channel Monitoring dashboards.
- Delivered reporting, **Open API integration**, routing, JSON serialization (Newtonsoft.Json), authentication/authorization APIs, caching, security, and scalability.

Advanced Traffic Management System (ATMS)

Domain: NHAI Highway Project | **Role:** .NET Full Stack Developer

Tech Stack: C#, ASP.NET Core MVC, Razor Pages, Entity Framework Core, SQL Server, REST APIs, Web Services, AJAX, jQuery, JavaScript, Bootstrap

- Real-time roadside traffic monitoring and highway management system integrating traffic devices, cameras, incident detection, weather monitoring, and control operations.
- Built **ANPR (Automatic Number Plate Recognition)** and ANPR Watch List monitoring for secure, real-time vehicle identification.
- Developed **ATCC** (Automatic Traffic Count & Classification) and Audit Trax system-log auditing, plus branch data operations.
- Implemented **CCTV** real-time video monitoring, device status tracking, direction/route data processing, and lane management.
- Built **ECB** (Emergency Call Box) for rapid emergency response, and event logging/tracking across the platform.
- Delivered **MET** (meteorological/weather data), traffic & incident reporting, **VIDS** (Video Incident Detection System), and **VIDES** (Video Incident Detection & Enforcement System).
- Configured **VMS** (Variable Message Sign), **VSDU/VASD** (Vehicle Speed Display), **TMCS** (Traffic Management & Control System), and **NMS** (Network Monitoring System) integrations.

STQC Security Point Solution

Domain: NHAI / IHMCL Highway Projects | **Role:** .NET Full Stack Developer

Tech Stack: C#, ASP.NET Core, SQL Server, Security & Compliance Best Practices

- Implemented security controls and compliance measures aligned with **STQC (Standardisation Testing and Quality Certification)** guidelines for highway toll and traffic infrastructure systems.
- Strengthened authentication, authorization, audit logging, and data security across TMS/ATMS modules to support government security certification requirements.

Network Management System (NMS)

Domain: VRS / NHAI

Tech Stack: C#, ASP.NET Core MVC, Web API, Entity Framework Core, SQL Server

- Built a network monitoring solution for highway and traffic operations covering device/link status, alerting, and event history.
 - Delivered network topology views and SQL Server-based reporting dashboards, integrated with ATMS and TMS operations.
-

ANPR – Automatic Number Plate Recognition

Domain: VRS / AI & Computer Vision

Tech Stack: Python, YOLO, OpenCV, OCR, C#, ASP.NET Core, SQL Server

- Built a computer-vision pipeline using **YOLO for number-plate detection and OCR for plate-text recognition**, feeding downstream monitoring systems.
- Implemented watch-list matching and live IP camera stream integration with TMS, ATMS, and MLFF systems.

Employee Attendance Management System

Domain: Chetu India

Tech Stack: C#, ASP.NET Core MVC, Razor Pages, Entity Framework Core, SQL Server, REST APIs, jQuery, Bootstrap

- Built authentication & authorization with Admin, User, and Employee dashboards, plus employee profile management.
- Implemented Clock In/Out, automatic attendance recording, and manual adjustment workflows.
- Developed leave request & approval workflow, monthly attendance reporting, mail service notifications, and login/logout.

Online Ticket Booking System

Domain: Web Application

Tech Stack: C#, ASP.NET Core MVC, Razor Pages, Entity Framework Core, SQL Server, REST APIs, jQuery, Bootstrap

- Built authentication & authorization with Admin and User dashboards, and full user/admin management.
- Developed ticket creation & management, ticket tracking & status, and availability/out-of-stock handling.
- Implemented Events & Organisations modules with integration APIs for end-to-end booking workflows.

Inventory Management System

Domain: Chetu India

Tech Stack: C#, ASP.NET Core MVC, Web API, Entity Framework Core, SQL Server

- Built a web application for product tracking and stock management with database-driven, SQL Server-backed reporting and CRUD operations.

EDUCATION

Master of Technology (M.Tech) — Appearing — Dr. A.P.J. Abdul Kalam Technical University (AKTU) | **Currently Pursuing**

Bachelor of Technology (B.Tech) — Dr. A.P.J. Abdul Kalam Technical University (AKTU) | **2019 – 2023** | **84%**

Intermediate (12th) — Uttar Pradesh Board of Technical Education | **2017** | **75%**

High School (10th) — Uttar Pradesh Board | **2015** | **80%**

CERTIFICATIONS

- **ADCA — Advance Diploma in Computer Application** — Score 85% | Duration: 1 Year | 2019
- **CCC — Course on Computer Concepts** — Grade A | Duration: 3 Months | 2018

LANGUAGES

Known Languages: English, Hindi

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief.
